DETAILED ACTION

Response to Amendment

1. The reply filed on 2-5-04 is not fully responsive to the prior Office Action because of the following omission(s) or matter(s): The previous claims 11-31 subject matter is a method for establishing corners of scanned documents, wherein claims 32-39 subject matter is directed to detecting and determining corners/ trailing edges and/or leading edges of said document. The scope of the newly added claims 32-39 clearly differentiates itself from the previous cited claims 11-31. See 37 CFR 1.111. Since the above-mentioned reply appears to be *bona fide*, applicant is given **ONE (1) MONTH or THIRTY (30) DAYS** from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment.

EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).

Election/Restrictions

1. Newly submitted claims 32-39 directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: The previous claims 11-31 subject matter is a method for establishing corners of scanned documents, wherein claims 32-39 subject matter is directed to detecting and determining corners/

trailing edges and/or leading edges of said document. The scope of the newly added claims 32-39 clearly differentiates itself from the previous cited claims 11-31.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 32-39 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

Conclusion

2. The amendment filed on 2-5-04 canceling all claims drawn to the elected invention and presenting only claims drawn to a non-elected invention is non-responsive (MPEP § 821.03). The remaining claims are not readable on the elected invention because The previous claims 11-31 subject matter is a method for establishing corners of scanned documents, wherein claims 32-39 subject matter is directed to detecting and determining corners/ trailing edges and/or leading edges of said document. The scope of the newly added claims 32-39 clearly differentiates itself from the previous cited claims 11-31.

Since the above-mentioned amendment appears to be a *bona fide* attempt to reply, applicant is given a TIME PERIOD of ONE (1) MONTH or THIRTY (30) DAYS, whichever is longer, from the mailing date of this notice within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD UNDER 37 CFR 1.136(a) ARE AVAILABLE.
